

This list reflects procurements made during the calendar year. The term length of these procurements vary. The amount of each procurement should not be interpreted as the amount paid, as it can be the case that the Exchange spends less than the amount of a contract; for example, even though MHBE contracted with Noridian Administrative Services, LLC for \$114,048,636.44, the contract was terminated early. This list does not include intergovernmental cooperative purchasing agreements, direct voucher payments, or purchase orders.

2012 Procurements
