

*This list reflects procurements made during the calendar year to date. The term length of these procurements vary. The amount of each procurement should not be interpreted as the amount paid, as it can be the case that the Exchange spends less than the amount of a contract. This list does not include intergovernmental cooperative purchasing agreements, direct voucher payments, or purchase orders.*

**2014 Procurements**  
*as of July 31, 2014*
