Enrollment by Plan Type

Enrollment by Metal Level

Metal levels (platinum, gold, silver, bronze) differ based on how you and the insurance company share the cost of your care. For example, insurance companies cover 90 cents on the dollar for platinum plans and 60 cents on the dollar for bronze plans. Financial help is only available through silver plans.

There are also different plan types. Some allow you to see almost any doctor or healthcare facility; others limit your choices to a network of doctors and facilities or require you to pay more if you use providers outside the network.
