Q #	Page #	Section	Question	Answer
1	7	II. E (3) Eligible Entities	Regarding “sufficient infrastructure,” do we have to show we can house all navigators that we manage? We have navigators that work for us but are housed at outside organizations	The organization should show that they have the capacity to oversee and manage all navigators, regardless of the site where they are working. There is not a requirement for the entity to house all navigators.
2	9	III. B (16) Program Activities/ Cond. of Award	Is there a definition of “meet regularly” with local agencies, what does that mean?	There is not a specific definition spelled out in the RFA; the spirit of the requirement is that the entity would be in contact more than two times during the year
