**Employer Eligibility**

**Full-Time Equivalent Employees**

The "full-time equivalent" (FTE) employee counting method in 26 U.S.C. 4980H(2) must be utilized to determine group size for health coverage.

- A. FTEs from full-time employees. Number of full-time employees working on average 30 hours or more a week (or 130 hours a month) for more than 120 days a year (even if they are not eligible or enrolling for health coverage).
- B. FTEs from part-time employees (excluding seasonal workers). Number of part-time employees who worked on average less than 30 hours a week. (Add up the total number of hours worked in a week by part-time employees and divide by 30. Example, 10 employees working 20 hours a week:  $10 \times 20 = 200 / 30 = 6.66 = 6$  (rounding down to the nearest whole number).
- C. Total number of FTEs = A + B

**Participation Determination**

Total number of eligible employees based on state law must work a minimum of 30 hours a week. Note: An employer may not set eligibility rules that would require an employee to work more than 30 hours a week to obtain small group coverage. As long as the employee meets the 30 hour a week standard, they are considered full time for purposes of coverage.
