**RE: Letter of Intent** Connector Entity Program Grants FY 2023

Dear Ms. Ginny Seyler:

In response to the solicitation above, we are delighted to submit this letter of intent. We intend to offer our services in The Central Region. Consumers in this region are the most familiar with us since we are working through our non-profit entity in these areas.

Community Support LLC., has served marginalized communities for over 10 years. In response to this solicitation, we have the capability to mobilize resources. The proof of this is the work we are currently doing to ensure that consumers in marginalized communities are vaccinated or provided with the required information to make informed decisions. By removing barriers to vaccination, we have demonstrated this. Additionally, we provide culturally relevant information, practical support, and one-on-one communication with trusted community partners and consumers about vaccine concerns.

We will be glad to submit a full proposal with additional information for your further review.

Sincerely,

*M. Ortiz*
