

DATA REPORT

August 31, 2024

- Private plans totaled 217,692 by the last day of August 2024. That is a new all-time record high for enrollment on Maryland Health Connection, in its 11th year. That was 14% higher than one year earlier.
- Income-based Medicaid through Maryland Health Connection totaled 1,212,419. That is nearly back to 2021 levels following a year-long process to return to pre-pandemic eligibility rules for Medicaid. The August 2021 Medicaid total was 1,205,887.
- New enrollments to MHC (not renewals) continue to climb, up to 35% of total enrollment, another all-time high. • Statewide enrollment of Black consumers was up 24% and Hispanic consumers up 23%, compared to one year earlier.
- Enrollments continue to grow for young adults, up 46% year over year to 77,882 at the end of August. And that increase is not just among applicants who qualify for the special state subsidy that averages about \$38 a month for eligible young adults (up 56% in a year).
- Enrollment is also growing among young adults who do not qualify for that income-based subsidy, up 23% in a year.
- “Life change” special enrollments totaled about 12,000 in August, about two-thirds of what they were one year earlier when the “unwinding” from the public health emergency rules was in full swing when consumers were helped to move into private plans and off Medicaid.
- However, special enrollments for enrollees with incomes of less than 150% of the Federal Poverty Level in August 2024 totaled nearly twice what they were last August.
- Dental enrollments totaled 55,788. Vision enrollments, new to Maryland Health Connection this year, totaled 561.

SUMMARY

Data includes effectuated (paid up) enrollments plus all new plan selections as of the last day of the month.

Private Plan Summary

Income Based Medicaid Summary

Enrollments 2023 vs 2024
