- January 2026 saw 254,661 people enrolled in private health plans through Maryland Health Connection. That is a 2% increase from from January last year (249,603), and up 19% from January 2024 (214,892), making this the strongest January enrollment in the past three years.
- The split between renewals and new enrollees in private health plans shifted to 81% renewals / 19% new in January 2026, compared to 77% renewals / 23% new in January 2025, indicating stronger retention year-over-year.
- 178,239 enrollees (70%) received the State Subsidy in January 2026, with an average monthly subsidy of \$94.66, for a total monthly cost of approximately \$16.9 million, continuing to enhance affordability for Marylanders.
- There has been a large shift across the board from Gold plans to Bronze plans compared to 2025, which is representative of less costly premiums but significant increase in medical liability with significant deductible increases.
- Enrollees experienced premium increases across all categories, but were most pronounced among enrollees below 100% FPL (which showed the most significant increase at 614% from \$47.35 to \$338.05) and above 400% FPL, with mid-income brackets experiencing moderate to significant increases between 8-34%.
